

## Get insulation rebates up to \$7,200

Insulation is a smart investment that pays for itself over time. With these new rebates, there's never been a better time to upgrade your home.

Get rebates that cover up to \$7,200 of the cost of purchasing and installing insulation.

### ATTIC

Attic insulation can have a big impact on savings and comfort.

**\$1/ft<sup>2</sup>**  
UP TO  
**\$1,500**

### BASEMENT

Properly installed insulation in the basement can help reduce condensation and keep water away from the foundation.

**\$2/ft<sup>2</sup>**  
UP TO  
**\$1,900**

### EXTERIOR WALLS

Walls can account for up to 20% of home heat loss.

**\$2/ft<sup>2</sup>**  
UP TO  
**\$3,800**

*To be eligible for a GreenON Rebate, ask for an R-value of at least 20 for basement and wall insulation. Attic insulation must have an R-value of at least 50 (you must install a minimum of R-20 to qualify).*

Air-source up to \$5,800  
Ground-source up to \$20,000

The Green Ontario Fund is a not-for-profit provincial agency that invests proceeds from Ontario's carbon market into climate actions that help people and businesses reduce greenhouse gas emissions and use cleaner technology to power their homes and workplaces. The GreenON Rebates Program is delivered by the Independent Electricity System Operator. Products must be purchased from and installed by a participating contractor. Rebates under this program cannot be combined with other rebates or offers and are subject to additional terms and conditions.

For more information, visit [greenon.ca/terms-and-conditions](http://greenon.ca/terms-and-conditions).

REBATES**  
UP TO  
**\$7,200**

Funded by  
**ONTARIO'S  
CARBON  
MARKET**

## A well-insulated home is a comfortable home

If your home has drafty rooms or you have higher than usual heating and cooling bills, insulation is an easy, immediate solution.

Insulation is a tried and true way to improve home comfort and efficiency, and advances in technology have made it an even more convenient way to reduce energy costs, improve year-round comfort and help address climate change.

## Five signs you may need better insulation

- Cold floors and walls in the winter
- Drafty rooms
- Higher than usual heating and cooling costs
- Inconsistent temperature from room to room
- Mould growing on walls or in the basement

## Lock out leaks and insulate

Talk to your GreenON participating contractor about the importance of air sealing to prevent drafts when you are adding insulation. GreenON Rebates are available for both.

All participating contractors can assess your home and recommend the best options for you. You can also contact GreenON Support for independent expert advice.

## Why act now?

Even small actions can add up in the fight against climate change. The more we do now, the more we can prevent:

extreme  
weather  
conditions

rising  
insurance  
costs

rising  
food  
costs

## How to qualify

To qualify for rebates, you must own a detached home, townhouse or semi in Ontario. If you rent, you must have the written permission of the landlord. Follow these steps:

1

Work with a participating contractor to purchase and install eligible insulation and air sealing

2

Your contractor submits the rebate application on your behalf

3

You validate that work is complete, submit your proof of purchase and receive your rebate cheque in the mail in approximately 8-12 weeks
